		Return to Social Work Log (Supervised Practice)
Date	Hours	Activity
	completed	
EXAMPLE:	7	Meeting via teams with a Social Worker from Humber. Talked through team structure, current working practice, referral processes.
		Attended Case discussion meeting.
		Read and took notes of examples of assessments on liquid logic.
		Spent time with See & Solve in order to increase my knowledge of resources used in this area.

		Return to Social Work Log (Private Study)		
Date	Hours completed	Activity	How it meets SWE professional standards	
EXAMPLE:	2	Read and made notes on journal article 'Personalisation and Social Care assessment Care Act 2014'	Clarification of responsibilities and legal context, duties of assessment, process etc is essential to fulfill role as SW 1.1/1.3 value individual	
EXAMPLE:	1	Reflected on Mental Capacity Act training and areas of legal literacy. What do I know, how can I progress, what questions do I have for my supervisor?	Keep practice up to date and reflect on own values 4.3/4.8	
EXAMPLE:	7	Completed training ©Care Act ®Mental Capacity Act in Practice ®Safeguarding Adults Level 1; ®DoLS Plus reading and notes around these topics making connections as to how they fit together	The Care Act clearly brings together an array of previous legislation, which appears simpler than when I was last practicing, and clearer in terms of its focus on putting the individuals wellbeing at the heart of all interventions supporting them to maintain control of their lives ( <i>fits with SWE 1.1; 1.2;1.3.1.4; 1.7</i> ). The principles of the act being empowerment, prevention, proportionality, protection, partnership and accountability( <i>3.1;3.3;4.7</i> ) The legal footing of advocacy is also new and appears to be a positive move. I was already familiar with safeguarding but this and the DoLS training helped me connect how legislation works across adult care. In terms of <i>SWE standards Demonstrate good subject knowledge 4.4</i>
